---

Thank you for participating in the BRC Fuel Safety Program, run by the PETROL Department. Below you will find a link to set up your payment account. Please read through the following information entirely, to understand important changes to our payment policies for 2019.

To set-up your account, simply follow the instructions below to

pay this \$1 account set-up fee. Select the card that you want to pay this invoice with, and then BE SURE TO CHECK THE BOX TO SAVE YOUR CARD ON FILE before you hit that pay button, or we will need to re-invoice you before your fuel account can be activated. PLEASE DO NOT CHOOSE A DIGITAL WALLET OPTION (G-PAY/APPLE PAY), OR YOUR CC WILL NOT BE SAVED CORRECTLY. There are no refunds for account set-up fees. Saving your card prior to getting to playa will allow us to activate your account faster when you arrive.

STEP 1. Each account-holder should SAVE THE CREDIT CARD THEY INTEND TO USE FOR PAYMENT in their Square account prior to coming to playa. Please do not save any other card than the card you intend to use for fuel throughout the 2019 season. Not complying with this policy could result in delays in fueling on playa.

STEP 2. Activate your account at the Hell Station when you arrive on playa and we will confirm that your payment method is on file.

We will do regular reconciliations as fuel is distributed to you on playa and will attempt to charge your credit card within 24-48 hours of each fill. However, running two gas stations and a fleet of fuel vehicles, not to mention technological systems in the desert can be unpredictable, so please anticipate reconciliations to continue post-event. Please notify your credit card company that you will have incoming charges from BRC PETROL, San Francisco, CA. Keep your card active, and continue to check your provided email post-event until we have notified you that your account for 2019 is paid in full. Failure to close your account before November 1st can result in a denial of future fuel privileges and report to associated departments.

That's it for now, in the meantime, read through our emailed PSAs to get up to speed on any changes and updates to the Fuel Safety program this year, and to get alerted when we set prices according to the market for this year's event. We anticipate being able to set fuel prices prior to August 15.

Below is a brief summary of how to activate your account once you arrive on playa, along with some advise to protect you from fraud or accidental charges.

## TO ACTIVATE YOUR ON-PLAYA ACCOUNT:

\*\*\*\*\*Project Lead, Fuel Contact, Payment contact\*\*\*\*\*

One of the persons responsible for this account must bring a copy (digital or printed) of your account's registration, the credit card they intend to use throughout the season, and their corresponding ID for verification before registering assets to be fueled and charged to that credit card. For your security, we will NOT ALLOW ANYONE OTHER THAN THESE RESPONSIBLE PERSONS to activate your account. If none of these persons will be on-playa, please contact [nines@burningman.org](mailto:nines@burningman.org) to discuss an alternate option for activating your account on-site.

PLEASE NOTE: We do not start deliveries until we know you are on playa, and your generator has been placed and tagged by our field registration agents.

## ON-PLAYA ACTIVATION BY ACCOUNT TYPE:

ART: Come to the Hell Station to activate your fuel account.

THEME CAMPS: You must come to the Hell Station to activate your account.

MUTANT VEHICLES: We will be at the DMV during the busy registration days in hopes of activating accounts there and relieving lines at the Hell Station. If you don't catch us there then come to Hell to activate your account.

## TIPS TO AVOID FRAUD OR ACCIDENTAL CHARGES:

1. Make sure that your payment contact is actively involved or kept informed when any assets are added to your account by our registration team.
2. In past years, some camps have authorized other camps or vehicles that did not pre-register for fuel, to place assets under their account as an act of kindness to those who did not register for fuel in advance. We strongly recommend that you do not do this, as you will be responsible for all assets authorized under your account, regardless of whether the other party reconciles with you post-event.
3. Keep track of the fuel charges coming in on your account, and keep your card active until you receive word from us that your

account has been paid in full.

4. Do not give your credit card or ID to another person to activate your account for you. Do not pay anyone claiming to be a fuel driver, or employee of Burning Man directly for fuel, whether by card or cash. Notify [petrol@burningman.org](mailto:petrol@burningman.org) immediately if you are requested by any party claiming to be an employee of Burning Man to pay for fuel by any other means than invoicing through this Square account.

You may contact us with questions at [petrol@burningman.org](mailto:petrol@burningman.org). However, if it is possible to hold these questions until you come to the Hell Station to activate your account, it would be appreciated so that we can continue completing all of the account registrations in our pipeline pre-event.

Thank you,  
BRC PETROL
